STEP UP Infection Control

UVC

15

MINUTES

UVC-Heat

30

MINUTES

Chemical-Free

- Uses Ultraviolet light at 254nm (UVC) and precision heat at 120 F to reduce infection and cross-contamination
- Safe to use with moisture-sensitive items and electronics like cellphones, radio, cables, tools, etc.

Tested to kill virus and bacteria up to 99.99%

- Tested on electronics and tools with an independent lab
- Can go up to 99.999% with the 30 mins UVC-Heat cycle

Built stronger to last longer

- Heavy duty construction designed to run continuously
- Aluminum interior for better UVC reflectivity
- Adjustable interior for ease of use

Designed to be mobile

- Swivel casters make it easy to move around
- Standard 120 Volts / 15 Amp; non-GFCI outlet

Model # CGUV57A
